NIAGARA FALLS CANADA
Ontario is Canada’s largest icewine producing province with the main region in Niagara on the Lake.

Icewine is made when the grapes are naturally frozen on the vine. In order to be icewine certified in Canada, grapes must be harvested at -8°C (17.6°F) or colder, have no artificial refrigeration and no added sweeteners. At Lailey Winery, we wait until at least -10°C (14°F) before we harvest our premium icewine grapes.

Niagara roots also extend to the Underground Railway, as those escaping slavery were ferried across the Niagara River to safety. Visitors to the **Niagara Freedom Trail** can take in a collection of landmarks that highlight this important time.
